Dear FCC:

For us that are on fixed income, Tracfone offers us peace of mind in case of an  
emergerency on the road. No monthly fee, just pay for the units you use. Some of  
us can not afford cell phone rates nor do we even want one.  
Some of us feel that cell phones should not be allowed to be used while people  
on driving down the road!!!!

Thank you for your prompt attention to this matter. Please provide a written  
response indicating the status/resolution of this matter.

Very truly yours,

Nancy Bennett
